Kemppei's FastMig M range supersedes the Fastmig Synergic range.

This Kemppei welder packs a huge duty cycle performance, increased productivity and work-site mobility.

The Kemppei FastMig M welder has 2 package options you can choose from, synergic or regular for optimal welding in your welding application. You are able to update your FastMig M setup to suit your production needs.

THIS IS IDEAL FOR

Demanding industrial workshops.

WHAT DOES IT WELD

Carbon steels.

BASEMARINE

The supply base you can rely on.
